

Chloride QuanTab® Test Strips, 30-600 mg/L

Product Number: 2744940

Chloride is found in nearly all natural waters and affects human taste above 250 mg/L. High levels inhibit plant growth, and many industrial processes need to limit chloride concentration. With Hach's chloride test strips, technicians in the field can test many samples in only a few minutes, and make immediate evaluations on-site, without any measuring, set-up, clean-up, or chemical handling. Our chloride test strips are also used in laboratories all over the world for pre-test screening-to detect the presence of materials that might interfere with lab testing. Contains 40 tests.

Specifications

^ Technical Attributes

Footnote	*mg/L unless otherwise noted; ppb = $\mu\text{g/L}$; ppm = mg/L.; gpg = grains per gallon; 1 gpg = 17.1 mg/L or 17.1 ppm.
Method Name	Titration Strip
Model	QuanTab® **
Number of tests	40
Parameter	Chloride
Platform	Test Strip
Range	30 - 600 mg/L Cl ⁻
Smallest Increment Steps	10-20 ppm increments
Units	40 tests
